

## Stuff Matters: Exploring the Marvelous Materials That Shape Our Man-Made World (Paperback)

By Mark Miodownik

Mariner Books, United States, 2015. Paperback. Book Condition: New. Reprint. 202 x 134 mm. Language: English . Brand New Book. New York Times Bestseller New York Times Notable Book 2014 Winner of the Royal Society Winton Prize for Science Books A thrilling account of the modern material world. Wall Street Journal Miodownik, a materials scientist, explains the history and science behind things such as paper, glass, chocolate, and concrete with an infectious enthusiasm. Scientific American Why is glass see-through? What makes elastic stretchy? Why does any material look and behave the way it does? These are the sorts of questions that renowned materials scientist Mark Miodownik constantly asks himself. Miodownik studies objects as ordinary as an envelope and as unexpected as concrete cloth, uncovering the fascinating secrets that hold together our physical world. In Stuff Matters, Miodownik explores the materials he encounters in a typical morning, from the steel in his razor to the foam in his sneakers. Full of enthralling tales of the miracles of engineering that permeate our lives, Stuff Matters will make you see stuff in a whole new way. Stuff Matters is about hidden wonders, the astonishing properties of materials we think boring, banal, and unworthy...
