

## University of California Publications in Anatomy Volume 1-2 (Paperback)

By California University

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 Excerpt: .of the entire thalamo-cortical radiation was interrupted within the posterior limb of the internal capsule (fig. 66). The split-like lesion (L in the figure) is located between the dorsal corner of the thalamus and the Sylvian sulcus, the level of the injury approximately corresponding with the planes of figures 33, 34 and 52 of both foregoing experiments. Interrupted by the injury, a dense bundle of ascending thalamo-cortical fibers (sr) degenerated completely, while other bundles of the thalamo-cortical radiation remained normal. The bundle which was thus caused to degenerate, is identical with the posterior or the caudal segment or fan of the thalamo-cortical radiation originating in the caudal thalamic segment and supplying the caudal half of the somato-sensory cortex behind the central sulcus (shaded areas in fig. 3). Bundles of the radiation remaining normal are those springing from the oral or Fig. 3, Experiment III. External (upper...
