One of history's greatest Biblical scholars, E. W. Bullinger proved through the internal evidence of the Scriptures the inerrant accuracy of God's Word. His major works: A Critical Lexicon and Concordance to the English and Greek New Testament; Figures of Speech Used in the Bible; and The Companion Bible are unparalleled reference works indispensably utilized in Biblical research. While Bullinger's major reference works continue to be widely studied, most people are unfamiliar with the bulk of his publications. This volume is a collection of twenty-four of his little known, shorter Biblical studies, covering varied topics which display the detailed accuracy of the Word of God and provide greater understanding of our Lord and Savior and what he accomplished for the Christian believer. Although brief in length, each of these expositions provide great illumination and inspiration to all those who continue to seek after truth. This item ships from La Vergne, TN. Paperback.
