By Percival Lewis

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Notes on the Properties of Matter and Heat The following Lecture Notes have been privately printed for the use of students taking sophomore Physics in the University of California. Students cannot be too often reminded that they cannot really learn the principles of Physics unless they become acquainted with them at first hand from daily experience or from individual or lecture experiments; text-books are merely guides to the use of such material. They are very necessary guides, however, for without them it would be impossible for any one person to properly classify, coordinate, and interpret his knowledge, to fill the gaps in his experience, or to get a proper perspective view of the whole subject. In reading, however, do not in any case try to recall the statements as given in the book. See, if you can, the thing or the phenomenon to which your attention is called by it, and try to remember what your own eyes have seen; if that is impossible, try to form a mental picture of the thing or the...
