## The Science of Making Movies: Black and White Version

---

By Mr. David L Roberts

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 90 pages. Dimensions: 10.0in. x 8.0in. x 0.2in. The Science of Making Movies engages young people with science by exploring its relationship to a fascinating art form, the art of making movies. It also provides readers with a basic tutorial on how to use their newly-gained scientific knowledge to help them to improve their own movies. This book takes young readers on an exciting journey through the basic elements of movie making and explores the science related to each one. The book details the steps involved in making movies by focusing on lights, sound, image capture and special effects. The author clearly explains the science related to each of these areas, providing explanatory sidebars and fun on-your-own activities that make the science come alive. NOTE: This is the black and white version. There is also a full-color version available. This item ships from La Vergne, TN. Paperback.

### Reviews

*This ebook can be worthy of a read, and much better than other. I have read and i am certain that i am going to planning to go through again once again in the future. You may like just how the writer compose this book.*

-- Mr. Grant Stanton PhD

*A whole new eBook with an all new standpoint. It is actually rally fascinating throgh reading through time period. You wont truly feel monotony at anytime of your own time (that's what catalogues are for relating to when you request me).*

-- Claire Bartell
