There are a number of large residuals from the smooth curve, but these appear to be due to the difficulties of measurements. 25. This star is always comparatively bright. It appears to vary slightly, but the variation, if genuine, is so small, that no attempt has been made to determine the period. 26. The period of this star is doubtless about right, although there are many rather large residuals from the smooth curve. These appear, however, to be due to the accidental errors of measurement....
